

LIFE ETHIC

Care for the Earth community
including all people.

Share surplus.

Conserve resources.

Cultivate biological diversity.

Limit consumption.

Let nature take its course.

Practice peace through
permaculture.

Care for the future.

How can you bring more benefit
through service?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

EARTH CARE

Earth's Community of plants, animals, mushrooms, insects & all kingdoms of life are a vast guild of interdependent organisms, a symbiosis. Care for the natural environment is necessary to support the health of every living organism on Earth.

How can you help care for the planet even more?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

PEOPLE CARE

Everyone has the inherent right to live a healthy life with fundamental freedoms. Together we can redesign our world to address pressing planetary concerns around hunger, homelessness, disease, oppression, poverty and access to education.

How can you support universal access to food, water, shelter, health care and learning?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

FAIR SHARE

There is a limited amount of resources available on the planet for all species to share. Everything on Earth plays an important ecological function. Many resources must be left alone to do their work in the world.

How can you share more of the Earth's gifts, resources & energy with all things?

Source: Bill Mollison tagari.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

FUTURE CARE

Future generations of people,
animals & plants have a
fundamental right to live in a world
with healthy soil, air & water,
abundance of resources and stable
climate. Leave a legacy of life.

What can you do to bring more
benefit to the Earth's future?

Source: Starhawk starhawk.org

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

SET LIMITS

Set limits to consumption and population. The carrying capacity of the planet's resource base is finite.

Nature's resources can be regenerative when used in moderation.

How can you set healthy limits for your consumption including giving back more than you take?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

PRIME DIRECTIVE

Taking responsibility for ourselves and our children is a keynote in living an ethical life. All decisions and actions can be informed by a commitment to act in alignment with core values of caring for people and planet.

What can you do to have a more positive impact on everything around you?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TRANSITION

Accept the use of unsustainable means when moving towards creating a sustainable future. Compassionately release ethical judgment of yourself and others on the journey to become better. Encourage, inspire and uplift others to change.

How can you transition into a more ethical lifestyle?

Source: Rob Hopkins transitionnetwork.org
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

SHARE SURPLUS

Share surplus to need. The Earth's resources support all living things to care for one another. Strengthening the life web benefits everything.

What new products or services can you generate in abundance and share with others in need?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.earth**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

DECOLONIZE

Make space: listen, include, invite, stand aside. Welcome all voices. Actively listen to what others have to say. Include a diversity of perspectives in decision making and design. Invite participation in the process. Support sovereignty and empower people to take action that brings benefit.

Source: Tamara Griffiths [@tamara_griffiths_](https://twitter.com/tamara_griffiths_)
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

RESPECT CULTURE

Respect Traditional Cultures. Make space : recognise, support, elevate, acknowledge. Recognise the traditional owners of the land you live on. Support indigenous people and elevate their existing projects. Acknowledge that permaculture has borrowed from indigenous cultures around the world.

Source: Tamara Griffiths [@tamara_griffiths_](https://www.instagram.com/tamara_griffiths_)
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

RELINQUISH POWER

Relinquish power to nature and highly effective people. Build a team and empower participants to have areas of independent responsibility as well as opportunities for leadership. Trust team-members. Focus on giving rather than receiving.

How can you create, maintain and uplift a more successful team of people to work with?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.earth**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

REDUNDANCY

Make yourself redundant. Share everything and help mentor others.

Create momentum so your work continues even when you are not there to do it. A legacy design helps create a regenerative and self-managed system.

How can you inspire others to join your team?

Source: Geoff Lawton geofflawtononline.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

PRODUCE LESS WASTE

Waste is an unused resource, the output of an ineffective design. Generating and using renewable energy, reducing ecological footprints and consuming less single use plastic products supports the health of Earth's ecosystem.

What steps can you take to utilize and repurpose your unused resources and generate less waste?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VALUE RENEWABLE

Renewable resources and services drive a healthy community, economy and industry. People power, plant power and animal power combine with planet power to harness sun, wind, tides and gravity, providing energy and resources without using things up or damaging the environment.

How can you utilize more renewable goods and services?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

RIGHT LIFESTYLE

Connect lifestyle and higher values.
Consider multiple ways to live in
'right' alignment with what you
believe in. Seek opportunities to
create a 'right livelihood' by earning
income in a way that benefits the
planet and its citizens.

How can your lifestyle bring more
benefit to our world and its citizens?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

DO WHAT YOU LOVE

Follow your heart in order to open up your journey way beyond your conditioning and the expectations of society. Loving your work and contributions supports your ability to make a difference in your life and world. Do what you love and with dedicated work over time, everything else in your life will fall into place.

How can you design even more of a passionate life led by what you love doing?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

BARE FEET ON THE EARTH

Take off shoes and feel the Earth.
Notice its texture and temperance.

Get more connected to what's
beneath bare feet. Walk the
boundaries of the land barefoot

What do you notice about the land
when you are bare foot?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VALUE EVERYONE

There are countless ways to contribute to a better world.

Everyone, even the most unassuming or challenging person, brings unique gifts and skills. Nourish, acknowledge and respect everyone to activate the highest possibilities.

How can you see the value in each person?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

HEALTHY FOOD & PEOPLE

Healthy soil produces healthy food
which creates healthy people.
Happy hearts, healthy bodies and
alert minds enable more positive
action. Work together with the Earth
to design a regenerative
homeworld.

How can you design for a healthy
home, community and ecosystem?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

BUILD TRUST

Trust enables groups, families and teams to function in dynamic harmony, achieving their goals and purposes. Evolve relationships and reduce the chance of conflict by building trust. This can unlock innovation, inspire leaps of faith and enhance creativity. Strengthen productive teamwork with regular activities that create trust.

How can you design to build trust within the groups that matter most?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

PEOPLE'S NEEDS

Work with people's needs. Before sharing new ideas about things to do, create or implement, consider the needs and ideas of others. Learn more about your life team and community. Fill in gaps and identify unfulfilled needs.

How can you try multiple ways to do a needs analysis during your design process?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

NATURE'S NEEDS

Work with nature's needs.

The Earth community is our most precious gift and ally. It provides the solid foundation for a healthy life. Consider nature's needs and how to give back.

How can you care for nature and practice reciprocity?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TAKE RESPONSIBILITY

Ask questions, think holistically and reclaim your power. Make informed choices and design to meet needs.

Take responsibility for your own actions and choices. Bill Mollison said "The only ethical decision is to take responsibility for our own existence and that of our children"

How can you take more personal responsibility for all aspects of your life?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

REFUSE ABUSE

Stand up for yourself and do not tolerate abusive behaviour towards yourself or those that you love. Gather the strength, courage and confidence to cultivate beneficial relationships and let go of relationships that are not serving your health and happiness. If any of your behaviours are abusive towards others, transform yourself and change for the better.

What can you do to refuse to stand for abuse in your relationships?

Source: Graham Bell grahambell.org
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

NATURE'S CYCLES

Synchronize with nature's cycles.

Mark time with sun dials and standing stones. Keep a biotime log noting natural events. Join with others to celebrate the Wheel of the Year marking solstices, equinoxes and the midpoints between them.

Connect with full moons, new moons and other celestial events.

Regular periods of reflection, intention setting and creative practices in nature bring benefit.

How can you align your design life with nature's time?

Source & Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

SPEND MORE TO GET MORE

The cost of buying ethical, local food, resources, energy and services is the real cost. Instead of expecting to spend less and get more, integrate the practice of spending more to get more! Investing in the health of people and planet is the highest use of money.

How can you invest in more local, ethical goods and services?

Source & Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

@breema-quinton

ATTITUDES

UNLIMITED YIELD

Resources have many different uses and can often be cycled through a system many times. Consider the value of products and byproducts you create, or could create, to both human and ecological communities.

How can you make more effective use of your yields while generating new ones?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan V

RELOCALIZE

Purchasing goods and services from the local community and bioregion helps regenerate the local economy while lowering the ecological footprint. Utilize community currencies, time banks and bartering to radically relocalize.

How can you provide for more of your needs locally?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

CLOSED LOOPS

Create closed loops. Energy, time and money are saved when resources are cycled locally. This reduces environmental impact and helps prevent unwanted elements like pests or pesticides to be imported from elsewhere. Supporting your neighbours may inspire them to support you.

How can you fulfill more of your systems needs onsite or locally?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

DISPERSE YIELD

Spread out harvests and yields across the season, year, decade and century. Enhance your ability to process, store and share effectively by dispersing abundance over time.

How can you design your system for staggered production?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

ADVANCE EVOLUTION

Tool using humans have a unique ability to support our own evolution and create the conditions for evolution to happen around us. Conscious design can help unlock the next level of any system.

How can you use permaculture design to advance your own evolution?

Source: Bill Mollison & Reny Slay tagari.com
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

GREATEST EFFECT

Make the least change for the greatest effect. Consider ways to reduce energy needs and environmental impact while still fulfilling needs abundantly. Look for leverage points to maximum effectiveness with minimum disturbance.

Where can you invest a small amount of time, energy and resources for the greatest increase in productivity?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

WORK WITH NATURE

Observe the flow of energy and resources through the system and adapt designs to utilize what is already happening. Nature is strong, utilize its strengths by designing in harmony with its patterns and flows.

How can you upgrade your design based on the patterns of nature?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

BIOLOGICAL

Green energy and renewable resources are a key to sustainable design. Replace plastics with organic material. Shift away from gas, oil, and nuclear towards solar, hydro, wind and tidal energy.

How can you utilize biological resources and green energies in your design system?

Source: Bill Mollison & Reny Slay **tagari.com**
Envoy: Delvin Solkinson **permaculturedesign.earth**
Art: Brenna Quinlan **brennaquinlan.com**
Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenna-quinnan

WORK WITHIN

Work within your means. Evaluate limits and capacities while striving to work within them. Conserve resources and energy. Design systems to provide for their own needs in the long term. Avoid debts that charge interest when possible.

What design expansions can you do that fit within the time, energy, money and resources you have?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-guinan

SUCCESSION

Work with succession. Life grows in sequenced patterns and cycles that repeat. A succession of stages in growth, birth, reproduction and death can be observed in all living systems. Designers can intervene in life cycles to speed up or slow down succession, or to effectively break a pest cycle.

How can you identify where your system is in its cycle of succession?

Source: Bill Mollison & Reny Slay tagari.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

LONG TERM PLANNING

Design for success by anticipating challenges and considering the regeneration of a system over time.

Create resilient systems that produce ongoing abundance over time.

How can you use long term planning to upgrade your site design?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

PERENNIAL SYSTEMS

Enduring over many years, perennial systems are hearty, create microclimates, habitats and abundant niches for life. Systems that grow and evolve over long periods of time help cultivate dynamic stability.

How can you create an enduring design with a foundation of perennial elements?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

APPROPRIATE TECH

Technology that utilizes local energy and resources with a low environmental impact is the touchstone for an efficient, effective and ethical design.

How can the technology you use for gardening, transportation, cooking, lighting, heating, sewage treatment and water storage be retrofit to be more appropriate to your particular design site?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

WORK WISELY

Work where it counts. Look for places your work can have the most enduring benefit. Design your work process strategically so you can make the most progress with your investment of time, energy and money.

How can you work where it counts on your design site?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

RESOURCES

Everything is a resource with functions and something to offer the system. Every object, energy, creature or person has something valuable to contribute to an effective design. Start with looking at the role and functions of elements already onsite before adding new elements from offsite.

How can you discover the value of the ordinary, overlooked or waste elements of your system?

Source: Michael Becker

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-pinton V

ENERGY PLANNING

Smart energy planning. First reduce energy needs and use. Power down by replacing things with high energy needs with lower tech or mechanized systems that require less energy. Harvest green energy onsite. Design systems to fit within the available energy.

How can you use less energy and utilize local, regenerative sources for the energy that you do use?

Source: Toby Hemenway tobyhemenway.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-pinton V

STRENGTHEN LINKS

A system is only as strong as its weakest link. Upgrade the connections between elements and maximize the efficiency of energy flows to reduce waste and increase productivity. Build stronger relationships with neighbours, community members and life team.

How can you enhance the links connecting different elements in your design?

Source: Toby Hemenway tobyhemenway.com
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-guinan

SLOW MONEY

Cycling money in the local economy supports community resilience. Businesses based on regenerative resources can create slow and steady long term yields. Bringing benefit to the local human and ecological community is the highest form of profit.

How can your money support local, ethical development?

Source: Toby Hemenway tobyhemenway.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

ONSITE RESOURCES

Use onsite resources. Nature provides an abundance of resources freely. Assess what is already available as a starting point for deciding about what is still needed.

What elements, energies and opportunities do you already have where you are?

Source: Toby Hemenway tobyhemenway.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

CREATE CONDITIONS

No-one can grow people, plants or animals. Nature grows by itself. It is possible to help create the conditions for things to grow in.

Pests arrive in the system because the conditions are right for them to thrive. Things succeed when living in the conditions for their healthy growth.

How can you create the conditions for your happiness, health and abundance?

Source: Larry Santoyo permacultureacademy.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

FIND THE FRIENDLIES

Allies are essential. Instead of trying to know everything or provide for all your own needs, get to know who knows, and who has, what is needed.

How can you locate more of the experts and resource suppliers that can support your work?

Source: Larry Santoyo permacultureacademy.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

LOW TECH

Seek the highest opportunity to use the lowest tech solutions. Find opportunities to replace digital tech with mechanical or manual technology. Utilize technology that you can fix yourself.

How can you power down towards technology that you can power, run and repair yourself?

Source: Larry Santoyo permacultureacademy.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

FILL FUNCTIONS

Fill fundamental functions first. Start with the essentials. Establish a foundation which provides for basic needs. Act within your sphere of influence and expand outwards.

How can you fulfill more of the core needs and functions of your design site?

Source: Larry Santoyo permacultureacademy.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

DIVERSITY

Use and value diversity. Part of nature's strength comes from diversity. Having many different species, elements, energies, resources and micro-climates creates resilience by providing a wide variety of functions, products, services, habitats, harvests and opportunities at different times of year.

How can you increase diversity in your design?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-guinan

USE EDGES

The place where two systems meet includes elements found only at the edge. A diversity of conditions, habitats and yields exist at edges in the landscape, and margins in society. The edge is where the action is. Geoff Lawton says "If you are not living at the edge, you are taking up too much room"

How can you maximize edges appropriately and utilize the marginal in your design?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinan

OBTAIN A YIELD

Diverse systems have many yields and byproducts. Harvest, store and share a sustainable amount of these yields. Each new success builds trust in the process. Permaculture design generates both food and fun, providing a diversity of yields every day of the year.

How can you reap more of the harvest from your world?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

SMALL & SLOW

Use small and slow solutions. Things done on small scale and implemented slowly have the lowest impact on the environment.

Successes can be replicated and failures designed out of the system.

Feedback can be effectively adapted into the ongoing design process before scaling up.

How can you favour small and slow processes in your design?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

PATTERNS TO DETAILS

Everything is made from patterns that repeat. Design with the larger patterns, contexts and conditions in mind, addressing core opportunities and challenges, needs and functions. Fill in the details once you have the larger framework patterns in place.

How can you observe and design larger patterns before moving into the smaller details?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

OBSERVE & INTERACT

Gather detailed observations through direct interaction. Note all elements, energies and influences throughout the seasons. Engage with the system directly, cultivating relationships with all its elements.

How can you spend more time observing and interacting with everything on your site?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

PLAN FOR DISASTER

Research and plan for climate extremes, natural disasters and social unrest. Look at historical patterns instead of averages to create a resilient design.

How can you prepare your design to thrive through future disaster scenarios?

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenna-goinlan

SLOW FOOD

Sharing ethically raised food that is prepared by hand with love can support holistic health, ease digestion and give opportunities to build relationships. Mealtime is an opportunity for team building, exploring design ideas and creating action plans.

How can you invest more time and money into growing, harvesting, purchasing, preparing and eating healthy meals?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **visionarypermaculture.com**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenna-quinnan

REGENERATE

Protect and regenerate nature. Ancient ecosystems are the organs of the planet. They help stabilize and regenerate our planetary ecology. Protect the remaining ancient ecosystems and conserve wilderness so it can regenerate the health of our world.

How can you help conserve wild nature on your land and bioregion?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.ca**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@breng-poinan

EMBRACE WEEDS

Weeds are high nutrient soil feeders and stabilizers, nature's way to keep land healthy. Many weeds are nutritious and medicinal. Weeds grow in conditions where they can help. Don't want the weeds? Change the conditions where they are growing.

Can you identify weeds & their functions where you live?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **visionarypermaculture.com**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenn-quinnan

WORK WISELY

Identify ways to invest time, energy and money that will create foundations for long-term abundance. Relationships with your life team are touchstones in the journey. Seek leverage points where small inputs help create regenerative systems.

Where can your work be the most effective in bringing benefit?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.ca**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenna-goinlan

INVEST WISELY

Invest in things you believe in.
Spending habits have the power to
support others in your community
and people with similar values.
Think of spending money as a vote.
Get conscious of who and what is
being voted for with your money.

How can you invest more of your
money into ethical and regenerative
enterprises?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **visionarypermaculture.com**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenna-quinnan

MAP, PROTECT, EXTEND

This principle of conservation is a strategy for regenerating wild spaces, supporting nature to help heal the planetary ecology and stabilize the climate. Charting the habitat range of endangered animals and plants is one application of this principle for protecting the wild.

How can you support conservation efforts to map, protect and extend wild spaces?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.ca**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@breng-poinan

BE REALISTIC

After an exciting period of creative brainstorming, come down to Earth with careful research about what is possible in your specific design site.

Consider limits of time, energy, money and resources. It helps to get outside opinions from people with experience.

How can you make your design more practical and achievable?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.ca**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@brenn-quinnan

RUTHLESS HONESTY

Be ruthlessly honest. Cultivate awareness of strengths and weaknesses. Admit mistakes and apologize. Share successes and failures openly.

How can you be more honest with yourself and your life team?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **visionarypermaculture.com**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

STRATEGIES

@breng-poinan

START SMALL

Start at the beginning and make sure that new developments do not outstrip the ability to maintain those developments in the long term. Do things within your achievable skill range and budget. Larger expansions can be done later. Little achievements will add up to large successes. Small becomes relative as you scale up.

How can you break down your design plan into a sequence of small, achievable steps?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

CELEBRATE

When reaching goals, both small and large, recognize and celebrate successes by sharing yields. Regular celebrations stir inspiration and passion for work, building confidence, boosting momentum and strengthening the team.

What new and creative ways can you use to mark and celebrate small successes?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinan

GET BACK TO WORK

Managing systems requires ongoing design, implementation and maintenance. Keep taking the design system to the next level and build on what has already been accomplished. Utilize the momentum from completing steps to help take the next ones.

How can you stay passionate and motivated to continually work towards your goals?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

FEED TO GROW

Feed what you want to grow. Invest time, energy and money to cultivate the best possible life. Put attention and effort into things that support health, happiness and abundance.

Focus on positive media, friends, learning and projects that represent the life you are passionate about.

How can you best feed the things in your life that you want to grow?

Source: Michael Becker

Envoy: Delvin Solkinson visionarypermaculture.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan V

FIND THE OTHERS

Cultivate relationships with people who are like-minded with similar interests, values and passions. Spend time with those who support you to be who you are and become who you want to be. Team work makes the dream work! This will also strengthen your ability to be in relationships with people who are different.

How can you find more of the others?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

HARVEST WHEN RIPE

Nature has its own timing. Design with flexibility to be able to adapt to life's opportunities. Patience and flexibility will be rewarded with a diversity of abundant harvests.

How can you cultivate the agility and freedom to synchronize with the harvests of nature and life?

Source: Richard Wallner aupetitcolibri.free.fr
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

NATURALIZE

A well-designed ecological garden or farm creates the conditions for its own success. As plant and animal communities get established and meet their own needs, less additional upkeep, watering and feeding is needed. Rewilding gardens and humans brings great health benefits.

How can you naturalize the habitat for yourself and other living things around you?

Source: Andrew Faust permaculturenewyork.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

SACRELIZE

Ritual intention and ceremony brings meaning and magic to design sites. Artful beauty can inspire reflection, contemplation and meditation. Create powerful places for nature connection, transformative education and uplifting community gatherings.

Adding elements that honour traditions and ancestors can make them memorable for all who visit.

How can you design a sacred space on your design site?

Source & Envoy : Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinlan

SHARE

Fast track your succession. Learn by observing, doing, teaching and sharing the learning process with others. Build community and deepen relationships by sharing.

How can you learn to do something new, practice it, teach someone else to do it and share the yields that come from doing it?

Source & Envoy : Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

NATURE'S TIME

Synchronize with nature's cycles.

Mark time with sun dials and standing stones. Keep a biotime log noting natural events. Join with others to celebrate the Wheel of the Year marking solstices, equinoxes and the midpoints between them.

Connect with full moons, new moons and other celestial events.

Regular periods of reflection, intention setting and creative practices in nature bring benefit.

How can you align your design life with nature's time?

Source & Envoy : Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinlan V

LEGAL DESIGN

Find what is not illegal and do it. Get to know bi-laws and building codes. Find the spaces where you can still be creative. Ask other builders and gardeners for workarounds and grey areas where you can practice permaculture without explicitly breaking any laws.

How can you push the edges of what's possible within the law on your design site?

Source: The Permaculture Movement
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinan

PAY IT FORWARD

Activate the gift economy. Repay one persons kindness by being kind to others, inspiring more kindness in the world. Practice random acts of kindness. Give gifts to encourage more gift giving.

How can you create opportunities to 'pay it forward'?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

WORK WHERE YOU ARE

Be present and in service wherever you are. Observe what's happening around you and use your design skills to be a solutionary. Look at the world as a designer and help where you can.

What can you see around you that could benefit from your work?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

SOCIAL DESIGN

Most designs have social components. Plan for group cohesion, ease and empowerment from the beginning. Research or anticipate needs and desires of people involved in the project. Design systems, processes and strategies that address challenges and meet needs.

What activities or events can you create to include and engage your team or community?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-guinan

BLUR EDGES

Hard boundaries and impermeable edges limit vision. Blurry edges consider neighbours, integrate surrounding landforms and connect with predominant vegetation, unlocking possibilities for collaboration.

What can you learn by looking beyond boundaries of physical, social or symbolic spaces?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinan

PARTICIPATORY DESIGN

Collaborating to co-create a design or plan of action with stakeholders can be empowering and supportive. Use creative facilitation and inclusive methods for having discussions, making decisions, designing and planning together. Supported, successful and unique projects that are well used and cared for can emerge from participatory designs.

How can you include and encourage participation of people who would both benefit from your project and bring benefit to it?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

PLANNING

Proper planning prevents poor performance. Preparing mitigates mistakes and challenges by anticipating next steps to take and details to consider. Flow and spontaneity are supported when there is a solid plan as a foundation.

How can you explore different planning methods to evolve your design process?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-poinan

WORK FROM AN EDGE

Start slowly and consistently. Work from a controlled edge outwards. If there is not an obvious edge, make one.

Where is the best edge to begin your work from?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-quinnan

START NOW

One is enough, start now. One person, working with creative, purposeful strategies and resources can make a big difference and inspire others to action.

What can you do
to create positive change
in the world?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-goinan

EMPOWER COMMUNITY

Many people working together in a harmonious and focussed way can create great change. Empowering community involvement requires patience, trust building & inclusivity. Public engagement, collaborative processes and creative facilitation are keys.

How can you empower community support, motivation and participation?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

LEARNING TEAM

Seek eldership, mentors and buddies. Look to an elder for guidance, inspiration and wisdom. Learn from elders about culture and history. Establish support systems for learning, skill building and personal development by taking on a mentor. A buddy system, where two people support each other, can add resilience and longevity to teams, groups and learning journeys.

How can your life team include an elder, mentor and buddy?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@breng-paintan

CARE FOR TOOLS

Tools are essential and make life easier. Care for them. Keep them sharp, clean, and oiled when appropriate. Have an organized place that tools are stored, close by for easy access and emergency. Avoid storing in sun or rain.

How can you best design your tool storage including regular tool maintenance?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenn-guinan

RESPOND TO NEEDS

Act on expressed needs. Principle of aid and development work. Be invited or first invite a person or group to receive aid. Next learn about their core needs. Make sure your support meets their communicated needs.

How can you give appropriate support to others in need?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

STRATEGIES

@brenna-quinnan

IT DEPENDS

Answers to permaculture questions consider many factors. Conditions, needs, resources & opportunities inform possibilities.

How can you explore many different answers to a permaculture question?

DESIGN

PUT YOUR HOUSE IN ORDER

Start with self and home, supporting personal health and the wellness of immediate relationships. Get your own life together so you can best able to serve the community.

How can you clean, organize and retrofit your personal life and home to fulfill their higher functions?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

@brema-quinn

DESIGN

MULTIPLE FUNCTIONS

Everything has the ability to play more than one function. Elements with many functions are valuable because they fulfill many needs. Elements may work together to play meta-functions which are only possible when they work together.

How can you design to create and utilize multi-functionality?

Source: Bill Mollison & Reny Slay tagari.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

@bermaquinlan

A watercolor illustration of two hands, palms up, holding a small cluster of blue flowers. The hands are rendered in shades of red and orange, with blue socks visible at the wrists. The entire scene is enclosed within a thin green rectangular border. Below the hands, the word 'DESIGN' is written in a black, sans-serif font on a light green, brush-stroke-like background.

DESIGN

MULTIPLE ELEMENTS

Principle of redundancy. Identify important functions of a system and ensure they are fulfilled by multiple elements. If one element fails to fulfill its function, there are multiple elements that ensure this function is still fulfilled.

Can you add more elements that fulfill the main needs and functions of your design?

Source: Bill Mollison & Reny Slay tagari.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

The entire scene is enclosed in a thin green rectangular border. At the bottom of the border is a green brushstroke containing the word "DESIGN" in a black, hand-drawn font.

DESIGN

INTENSIVE SYSTEMS

Designing for small spaces is efficient and effective. Intensive systems are the easiest to care for and regulate. Creating many smaller interconnected systems, instead of one large system, increases diversity, resilience and productivity.

How can you design more intensive, small-scale systems?

Source: Bill Mollison & Reny Slay tagari.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

@brema-quinn

DESIGN

EVERYTHING GARDENS

The garden is a metaphor for any system of relationships. Every living thing eats, drinks, produces, has relationships, fulfills ecological functions, grows and dies just like a garden.

How can your design support its elements to play their functions?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

@bermaquinlan

A watercolor illustration of two hands, palms up, holding a small cluster of blue flowers. The hands are rendered in shades of red and orange, with blue socks visible at the wrists. The entire scene is enclosed within a thin green rectangular border. Below the hands, the word "DESIGN" is written in a black, sans-serif font on a light green brushstroke background.

DESIGN

GUILDS

When individual elements come together, they can fulfill new meta functions. Guilds of complimentary elements can provide for more of their own needs. This master pattern can be seen at all levels of nature.

Success comes from
working together.

How can your design support the development of a healthy life team and ecological community?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.ca

DESIGN

BOTH WAYS

Everything works both ways. Things have the capacity to help or harm, be functional or dysfunctional, be used for good or for bad. All elements affect, and are affected by, the world around them. Cultivate awareness of both the opportunities and challenges in every situation.

How can you design to reinforce benefits and address challenges?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

@bermaquinlan

A watercolor illustration of two hands, palms up, holding a small cluster of five blue flowers. The hands are rendered in shades of red and orange, with blue socks visible at the wrists. The entire scene is enclosed within a thin green rectangular border. Below the hands, the word 'DESIGN' is written in a black, sans-serif font on a light green, brush-stroke-like background.

DESIGN

RECARBONIZE

Trees and plants help to collect and sink carbon into the Earth where it can be a healthy part of the ecosystem. Reducing carbon footprints is a powerful contribution to climate change.

How can you help decarbonize the atmosphere and recarbonize the Earth?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Design: Alexa Spaddy **alexaspaddy.com**

@herma-quintan

A watercolor illustration of two hands, palms up, holding a small cluster of five blue flowers. The hands are rendered in warm, earthy tones of orange and brown, with visible brushstrokes and shading. The wrists are wrapped in blue fabric, possibly cuffs or sleeves, with some darker blue shading. The entire scene is enclosed within a thin, hand-drawn green rectangular border. Below the hands, the word "DESIGN" is written in a simple, black, sans-serif font, centered within a horizontal green brushstroke that serves as a background for the text.

DESIGN

CYCLE WATER

Catch, Store, Clean, Use, Release.
Catch water from rain, snow and runoff. Store for future use. Clean with filters, settling tanks, solarization, oxygenation and vortexing. Reuse water many times in your system. Release water back into the ecosystem and hydrologic cycle.

How can you design your site to catch, store, clean, use and release water more effectively?

Source: Rosemary Morrow

A watercolor illustration of two hands, palms up, holding a small cluster of blue flowers. The hands are rendered in shades of red and orange, with blue socks visible at the wrists. The entire scene is enclosed within a thin green rectangular border. Below the hands, the word "DESIGN" is written in a black, sans-serif font on a light green brushstroke background.

DESIGN

BUFFER CLIMATE

Moderate strong climatological effects including extreme temperature, winds and weather. Using berms, hedgerows, treelines, structures and biotechture can help reduce the impact and intensity of the environment. Providing for food, resources and energy needs onsite can buffer against economic and political hardship.

How can you design a resilient site to buffer against natural or human climate extremes?

Design: Alexa Spaddy **alexaspaddy.com**

@herma-quintan

A watercolor illustration of two hands, palms up, holding a small cluster of five blue flowers. The hands are rendered in warm, golden-brown tones with visible brushstrokes and shading. The wrists are wrapped in blue fabric, possibly cuffs or sleeves, with darker blue shading. The entire scene is framed by a thin, dark green rectangular border. Below the hands, the word "DESIGN" is written in a black, sans-serif font on a light green, textured rectangular background.

DESIGN

CONNECT

Connect with the growing cycle.
Living in alignment with the sun,
moon and planets as well as the
climate, plants and animals, brings
attunement with nature.
Synchronizing bodies and gardens
with natural time brings health.

How can you plant, harvest and live
in alignment with the patterns and
cycles of the planet and cosmos?

Source: Rosemary Morrow

A watercolor illustration of two hands, palms up, holding a small cluster of five blue flowers. The hands are rendered in warm tones of red, orange, and pink, with visible brushstrokes and shading. The wrists are wrapped in blue fabric. The entire scene is framed by a thin green border. Below the hands, the word 'DESIGN' is written in a black, sans-serif font on a green, textured rectangular background.

DESIGN

SLOW SPREAD SINK STORE

By increasing the amount of times we reuse water in our designs, we can reduce the total water needed from off site. Channel water along the longest path (over the most distance), traveling as slowly as possible (over the most time), rubbing up to as many things as possible (with the most passive friction), to create the most fertility.

How can your business design slow, spread, sink and store currency?

Below the hands, the word "DESIGN" is written in a bold, black, sans-serif font, centered within a horizontal, textured green brushstroke.

DESIGN

PATTERN LITERACY

Everything is made out of patterns.

Some patterns are functional and beneficial while others are dysfunctional and unhealthy.

Reinforce and replicate beneficial patterns, redesign or replace dysfunctional ones. Relearning the pattern language of nature helps people read the landscape, learning valuable lessons about the past and present to apply in the future.

How can you identify functional and dysfunctional patterns in your design?

DESIGN

INTEGRATE

Integrate rather than segregate.
Enhancing the relationships
between elements, focus on
creating a unified working system
instead of dividing it up into
separate and disconnected parts.
The connections between elements
are often as important as the
elements themselves.

How can you integrate more local
people, plants, animals and
elements into your system?

DESIGN

CIRCLES & CYCLES

Nature moves in circles and cycles. Everything is born, grows, dies and regenerates. From death comes life.

Waste from one thing is food for another. To support and maintain the cycles of life its important to give back, replenishing whatever we use.

How can you support all the stages of life cycles on your design site?

Source: Starhawk starhawk.org

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

©bernita-quintan 09

RELATIVE LOCATION

Arrange elements that function well together and fulfill each other's needs. Separate elements that work better when further away. Find a harmonic arrangement that maximizes productivity and healthy functioning.

How can you rearrange elements in your design site to maximize effectiveness?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

ZONES

Locate elements in relation to the frequency of their use. Elements that are used more, need more upkeep and which take up less room can be designed intensively closer to the places where you spend more time. Elements used less, with less maintenance needs and which take up more space can be designed on a broad scale further away from where you spend most of your time.

How can you organize elements on your design site into zones?

Source: Bill Mollison tagari.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

SECTORS

Chart energies and influences that pass onto or through your design site. Observe the patterns of sun, shade, water, wind, noise, smells, views, animals, plants and other natural forces. Note the influence of culture, bylaws, economics, legal structures, bioregionalism and neighbours.

Can you identify sectors and channel, block, or capture and store their energy?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

ELEVATIONAL PLANNING

Closely consider contour, slope and aspect when you are mapping your land. Recognize energy flows and microclimates that are created by different elevational features. Store resources high in the landscape and use gravity to bring them to different locations on site.

How can you use elevational planning to upgrade your design site?

Source: Bill Mollison tagari.com

Envoy: Delvin Solkinson visionarypermaculture.com

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

©bernita-quintan 09

DESIGN FOR MICROCLIMATE

Every site has a range of small areas that are drier or wetter, and hotter or colder. Direct observation of site specific energies and influences includes the location and movement of the water, sun, wind, fuel, nutrients, animals, plants and trees with attention to the slope and aspect.

How can you use do a microclimate analysis on your site?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson **permaculturedesign.earth**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

TOOLS

APPROVE, AVOID, ASSIST

A principle for teaching effectively.

Approve, affirm and give positive reinforcement to powerfully uplift learners. This needs to be genuine to work best. **Avoid** blaming or shaming. Ask questions that anyone can answer. Draw out answers from those hesitating to participate.

Assist students, offering support to those feeling confused or shy. Reframe or clarify questions when not understood.

How can you become a better teacher?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

V.I.S.A.

Visual, Impactful, Simple, Appropriate. A principle for using teaching tools effectively. Make teaching tools **visual** so they can be seen easily across the room. Great tools are bold and **impactful**. Keeping them **simple** to avoid distraction from the topic. Use **appropriate** timing, place, culture, context, and language to consider when matching a teaching tool with a class. Have a clear purpose, goal or learning objective.

How can you successfully design more teaching tools?

Source: Rosemary Morrow

bluemountainspermacultureinstitute.com.au

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

R.E.K.S.

Respect, Enthusiasm, Knowledge, Safety. A Principle for Teaching effectively. Honor and **respect** everyone. Stay inspired and **enthusiastic**, letting your passions shine through. Accurate **knowledge** is key. Teach what you know, research topics well and regularly update information. Create a feeling of **safety** by addressing student concerns as they come up and meeting student's basic needs.

How can you upgrade your capacity to teach?

Source: Rosemary Morrow

Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

REGENERATIVE DESIGN

Regenerative systems become more abundant and healthy over time. Our community, language, culture, muscles and traditional knowledge are all regenerative resources. Nature is inherently regenerative, when left on its own it becomes healthier, more resilient, and increasingly diverse.

How can you make your design more regenerative?

Source: Toby Hemenway tobyhemenway.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

LET IT GO

Working within your means and the constraints of your design site sets limits to what elements you can successfully include. Sometimes you need to let ideas and visions go when they are not a harmonious fit for your life or land.

How can you take out elements of your design that are wasting valuable time, energy and money?

Source: Larry Santoyo permacultureacademy.com
Envoy: Delvin Solkinson visionarypermaculture.com
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

DESIGN BY CHUNKING

Experiment with ideas on a small scale then replicate successes and avoid replicating failures.

Expand in small chunks, slowly working outwards and increasing connections between new and old elements.

How can you experiment with a little chunk of a larger design plan?

Source: Larry Santoyo permacultureacademy.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

EMERGING DESIGN

The world is ever-changing. Plans can evolve and adapt based on feedback that you get while in the midst of applying and implementing them. Designs emerge over an ongoing process of integrated observation before, during and after implementation.

How can you create an open design that can emerge over time?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

INTEGRAL DESIGN

Permaculture is about creating webs of relationships, and connecting elements together with an organization that promotes beneficial and symbiotic functions. By integrating wild and cultivated spaces, agriculture and horticulture, business, wellness and economics, permaculture looks to create integral systems of interconnectedness.

How can you create an integral design for your site?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

WILD DESIGN

Discover brilliant new ideas by stepping outside the box and exploring design potentials in a fun and creative way. Avoid being limited by the perceived restrictions of the site or your immediately available resources. Harvest new ideas, which may contain a practical and useful upgrades to your design.

How can you integrate creative and visionary design processes that inspire you to see with a new perspective?

Source: Michael Becker

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

OBSERVE & INTERACT

Cultivate a direct relationship with a design site by observing and interacting with all its elements and influences. This leads to a more holistic and functional design.

How can you deepen a relationship with your life and land?

Source: David Holmgren holmgren.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

SIX HATS

Consider your design from many different perspectives by 'wearing' different symbolic hats. The **White Hat** assesses information that is known or needed. The **Red Hat** explores feelings, hunches and intuition. The **Black Hat** helps judge efficacy and explores reasons it may not work. The **Yellow Hat** brings in positivism and confidence. The **Green Hat** contributes creative new ideas. The **Blue Hat** helps guide the process by organizing, facilitating and setting goals.

How can you use the six hats to support your design process?

Source: Eduardo de Bono debono.com

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

P.M.I.

Plus, Minus, Interesting.

Identify opportunities, advantages, energies and resources available on your design site. Consider the challenges, obstacles and limits that you will face in the design process.

Ponder unique characteristics, features and potentials for your design.

How can you use this design tool to analyse your design, site and process?

Source: Eduardo de Bono **debono.com**

Envoy: Delvin Solkinson **permaculturedesign.earth**

Art: Brenna Quinlan **brennaquinlan.com**

Design: Alexa Spaddy **alexaspaddy.com**

TOOLS

THREE JEWELS

Observe, Integrate, Apply.
Careful **observation** over time creates awareness about the seasonal elements and energies of a design site. Taking time to **integrate** these observations yields holistic understanding about the relationships and functions of the existing system. Developing a series of potential designs can later be refined throughout the **application** process.

How can you spread out your design process to observe and integrate before, during and after application?

Source & Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

COMMUNITY NETWORK

Create a map, pamphlet, document or website to share information about your site.

Approach local education, government and non-profit groups for the opportunity to share at a meeting. Ask for their support by being able to include their logo and website in a "supported by" section on your media. Building bridges between education, non-profit and government groups brings benefit.

How can you create design media that helps you network and connect with community groups?

Source & Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

DESIGN BY EXCLUSION

Analyze a wide range of design possibilities for your life and land. Consider your needs, resources, design goals, abilities and long term maintenance. Filter out any design possibilities that don't fit.

Whatever remains is worth considering.

Of all your design visions, can you exclude any that do not fit?

Source: Ian McHarg

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

DESIGN FROM PRECEDENTS

Compare your design site or vision to similar situations in other places or with other people. Notice successes you can replicate, as well as key learnings, challenges and failures that you can design for.

What precedents can you find that may help inform your design?

Source: Dave Boehnlein terraphoenixdesign.com
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

CLIMATE ANALOGUES

Find locations around the world with a similar latitude, altitude and distance from large bodies of water. Look for places that have a similar culture, economy, value system, business interests or needs. Learn from their strategies, successes and failures.

How can you do more research on places or situations around the world that are similar to your own?

Source: Doug Bullock permacultureportal.com
Envoy: Delvin Solkinson permaculturedesign.ca
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

KEYLINE SCALE

Keyline is an ecological approach to broad scale land practices. Organize the placement of elements by their degree of permanence by considering **climate, landform, water supply, roadways, tree and plant systems, microclimates, buildings, fences** and **soil**. Identify landscape features like ridges and valleys along with watercourses and optimal water storage locations.

How can you do a site analysis addressing all the Keyline considerations?

Source: P.A. Yeomans

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

COMPETENCY CYCLE

Learning is a journey. Move through a process of succession every time something new is learned. Start with the blissful ignorance of **unconscious incompetence**. The door opens to knowing what you don't know with **conscious incompetence**. Awkward know-how brings learning into **conscious competence**. Through practice it becomes second nature with **unconscious competence**. Then it can be taught and adapted to new situations.

How can you apply this cycle to increasing your design prowess?

Source: Martin M. Broadwell

Envoy: Delvin Solkinson visionarypermaculture.com

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

STOP, OBSERVE, LISTEN

Be still. Notice feelings. Sense nature and the landscape. Deep listening and observation using all the senses yields rich information about the world.

What do you perceive when you close your eyes and mouth while opening your heart?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

SET VISION & GOALS

Cultivate a clear vision and head towards it. Plan steps and set goals to help realize your vision. Use the process to motivate you, help stretch your edges and work effectively towards manifesting your vision.

Where do you want to be in five years' time and what goals could help you get there?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

MAKE MODELS

Build 3-d models to better visualize what a design for land, buildings, gardens or integrated physical systems look like. Use clay, cardboard, sticks, boxes and appropriate craft materials. Cork tiles or layers of cardboard can help create contours.

How can you make a model to represent a physical design site?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

MOVABLE MAP

When designing for physical landscapes, make a base map and shapes for each element that you want to include, all to scale. Place and move around elements to see and feel how they are best placed to work together. Use colour coding to indicate groups of elements. i.e. Blue for ponds and tanks, yellow for structures, green for trees and gardens etc

Can you make a movable map to help design a physical space?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

PERMACULTURE CLASSES

Look through the permaculture lens to imagine a holistic and interconnected design for whatever you are viewing. Observe the site, notice patterns and see through problems to their solutions.

What new information do you gain from looking around through a permaculture lens?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

RANDOM INPUT

Allow designs, plans, projects and solutions to be influenced by spontaneous suggestions and inspiring ideas. Consider out-of-the-box elements that could uplift what you are doing. Collect sets of wild ideas and creative concepts, bringing them in randomly during a design process.

How can you use creative sparks from wild and visionary ideas to liven up and enhance your design?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

NEEDS BASED DESIGN

Identify the core needs that your design will fulfill. Also consider the core needs of your design, it's elements and the people who will engage with it. Design and plan with needs fulfillment informing decision making.

How can you meet more needs with the products and functions of your design?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

REVIEW, RENEW, REVISE

Design, planning and learning cycles naturally go through a succession of several steps. Seek evaluation, do self-review and **review** as a team to inspire continuous improvement and professionalism. **Renew** the design to apply your insights. Revisit and **revise** the design regularly.

How can you get constructive feedback to review so you can discover more ways to continually renew and revise your design?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

TOOLS

@bernita-quintan 09

STEPPING STONES

Create timelines to set goals and sequence steps. Imagine each small goal as a stepping stone along a pathway to the final outcome. Find creative ways to symbolize the steps and celebrate each one as it's achieved, whether small or large.

How can you map out the next series of steps in your design?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

TOOLS

RENEWAL OF CREATIVE PATH

Contemplate life, identifying patterns helping you feel connected to yourself, others & nature. Reflect on obstacles to connection & patterns that disconnect. Think about encounters with synchronicity, indicating connection and help from nature. Have loved ones help identify your gifts, skills & passions. Consider key stepping stones and turning points in life. Forgive the past & release expectations of the future. Vision your ideal scene, imagining the next level. Visualize sharing your ideal scene with ancestors & future generations and wisdom they may have for you.

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

7 WAYS TO THINK DIFFERENTLY

@bernaquinlan

CO-OPERATIVE THINKING

Everything is a co-creation.
Collaborate with other people,
animals and plants while working
with influences like weather,
politics and economics. Create
designs supported by many
connections and strengthened by
the combined force of many
elements working in unison.
Cultivating beneficial relationships
helps us share and fulfill our
needs locally.

Be a Networker.

Maintain individuality while
joining in with the hive.

DISCOVER

Embrace, Respond, Discover.
Embrace potential for growth, harmony and transformation in yourself and every situation. Generate awareness of what is possible. **Respond** to life and adapt to the ever changing, evolving and transforming circumstances that can help inform decisions about the way forward. **Discover** abundance and create new perspectives, possibilities and pathways.

Be a manifester.

Unlock possibility.

VISION

Articulation is the key to manifestation. Describe what you want to create in positive and uplifting ways. Draw inspiration from your passions. Communicate this in a clear, accessible and positive way. Identify your **core goal**.

Be engaging.

How can you vision what you want to design?

Source: Looby Macnamara cultural-emergence.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

DESIGN WEB

HELPS

Celebrate your gifts and skills.
Observe the people and resources
that can aid you in achieving your
vision. Tap into this reservoir of
support. Affirm and connect with
your team. Identify your
core support.

Be helpful.

What can uplift you to
manifest your vision?

Source: Looby Macnamara cultural-emergence.com

LIMITS

Recognize how challenges are also opportunities. Look for obstacles that may slow down or halt your progress. See how your inner stories of limitation can be traced to self-limiting beliefs and reframe these in positive ways. Identify your **core challenges** and **core reframes**.

Be aware.

How can you overcome potential problems in realizing your vision?

IDEAS

Make room for unexpected manifestations. Create inspirational contexts for your design processes. Get feedback and generate think tanks with allies to invent new possibilities. Bring creativity and non-linear thinking into your brainstorm. Identify your **core inspirations.**

Be extraordinary.

How can you generate new ideas for successfully moving towards your vision?

Source: Looby Macnamara cultural-emergence.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

DESIGN WEB

@Guernica.guinan

PRINCIPLES

Look to nature's operating system to inform your design. Come up with new principles from your own observations of nature. Accept insight from the ways the world works and go with the flow of how energy is already moving. Identify your **core guidance**.

Be guided.

How can you apply permaculture principles towards the successful realization of your vision?

Source: Looby Macnamara cultural-emergence.com

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

DESIGN WEB

INTEGRATION

Forge a connection between each anchor point and the different dimensions in your design. Bring together your needs, functions and intentions. Create different systems that can help you achieve your needs, fulfill your functions and achieve your intentions. Identify your **core needs & core functions**.

Be decisive.

How can you unify your design into a holistic approach for turning your vision into reality?

Source: Looby Macnamara cultural-emergence.com

Envoy: Delvin Solkinson permaculturedesign.earth

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

DESIGN WEB

@Guernica.guinan

ACTION

Write out your action plan and list the steps to do in sequence. Organize yourself and be proactive in completing small achievable goals that lead to larger accomplishments. Identify your **core movements**.

Be effective.

How can you move towards your vision?

VISION TREE

VISION TREE INTRO

Planning and Design Process.

The analogy of a tree and its growth stages become a pathway for groups, organizations, teams and enterprises to effectively achieve their vision, goals and purpose. It's a strategic social design tool that can also focus a business plan, a course, a book, a permaculture design or an individual life design. Use it to conceive, birth & expand or to review and revitalize. Begin with a healthy foundation.

In what context can you best use this planning & design framework?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

SUBSOIL

Needs.

Like the soil beneath our feet, needs are foundational. Unmet needs can cause challenge and prompt people to leave. Identifying personal needs and other group member's needs supports trust, connection and satisfaction. Discern the needs of the group as a whole.

What are your needs for involvement in the group? What does the group need to be harmonious and effective? What does the client, audience, participant or reader need?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

SOIL

Values, Principles, Ethics.

Working together to establish then embrace shared values, principles and ethics can be like the richness and warmth of soil. This process supports respect, wellbeing, integrity and integration. It also informs the group's vision, goals and activities, a touch stone to inform decisions and scope, always there to be referred back to and refined.

What are your personal values, ethics and principles? Of your group? How do they align?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

MULCH & MICRO-ORGANISMS

Shared Agreements, Understandings, Appreciations, Group Culture

Protection of the soil with straw, mulch and help from micro-organisms represents the basis for healthy & sustainable group culture. Develop good governance, decision making processes, agreements on conflict and problem solving then evolve ways of working together.

What agreements does your group need to make? Can you agree to transform conflicts & challenges?
What processes will you use?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

SEED

Vision, Purpose, Intention.

After planting the seed of vision into luscious, rich foundations, it's possible for gestations and germination of ideas to flourish. Healthy roots for the actualization of our dreams grow in the groundwork that's already been cultivated. Acknowledge this fertile manifesting time with ceremony and celebration.

What is your group's purpose or intention? What visioning processes will help your group collectively harvest its most potent ideas and dreams?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

THE ELEMENTS

Attitude.

A positive attitude is important for a healthy life. This is equally true for a group, as is feeling supported, being connected to nature and all the elements around us. Taking personal responsibility for our behaviors and wellbeing while building trust as a group is strengthening.

How can each person cultivate and maintain a healthy, positive attitude within themselves & with the group?
How does the group collectively generate a good attitude?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

TRUNK

Aims, Goals, Objectives, Mission Statement.

A solid, stable tree trunk grows from the seed of the group's vision and clarification of its purpose. A healthy vital group, growing in respect and understanding, is one that sets and embraces its goals and objectives, while using an active mission statement. This brings focus with optimism.

What are the goals and objectives of the group? What will you include in a mission statement?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

BARK

Skills, Learning Resources, Challenges, Threats.

Tree bark gives texture to the maturing vision, opens possibilities and supports group sustainability.

Acquiring skills and creativity through self-paced learning brings perseverance, resilience and cooperation. Embrace difference, cultivate fair-mindedness, grow conflict transformation and problem solving skills.

What learning opportunities and resources are available? How will you meet conflict and challenges?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

BRANCHES

Activities, Domains, Teams, Areas of Focus.

Fully developed limbs of the group are the result of action and growth. A group can nurture the arms of its intention in one single focus or in many directions. Make achievable choices that support balance. Refer back to the purpose, mission statement, aims and objectives to help decision making. Each branch can set its own aim and purpose.

How will the different branches of the group stay connected to each other and its shared roots?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

SUB BRANCHES & LEAVES

Specific Projects, Tasks, Events, Roles.

With detailed planning and action, sub branches map out the pathways and processes to grow the mission of the group in a collaborative and cooperative way, guiding the steps forward. Consider each element, role & course of action. Information, support and energy is gathered from all directions encouraging diversity, new opportunities and fruitful participation.

What steps can move the group into action with a holistic perspective?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

VISION TREE

FLOWERS

Gratitude, Celebration, Lessons.

Group blossoming and the fruition of actions are the result of hard work, creativity and good planning. Express gratitude, appreciation and encouragement by celebrating successes to acknowledge and activate magic, encouraging abundant seeds to set. Support continued flowering of all involved by learning from mistakes and acknowledging lessons learnt.

How can you best support members to celebrate their efforts and offer gratitude?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

FRUIT & SEEDS

Outcomes, Completion, Success.

Projects have been implemented and come to fruition, inspired by the initial seeding of the vision and all that's gone into creating the fruits of everyone's labours. Address finer details and complete loose ends. Documenting the process and the successful outcomes creates visual memories to inspire future projects, supports evaluation, aiding completion ceremonies and closure.

How can you best document outcomes and successes?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

BIRDS & INSECTS

Support Systems, Allies, Education, Training.

Delightful birds & beneficial critters are present at all stages of the trees growth. These represent mentors, elders, allies and support systems that ensure strong, healthy growth and ripe, juicy fruit. Care for staff, members and participants.

Encourage supportive education and training at all stages.

Who are your allies? Who gives guidance, resources & care? What education & training brings wellbeing & inspires contribution?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

VISION TREE

BEES & BUTTERFLIES

Currency, Funding, Networking, Trade.

Winged creatures cross-pollinate, creating beauty & abundant energy. They symbolize the need for energy coming in the form of income, resources, funding and grants.

Encourage the buzz of people's energy through networking, sharing of ideas, stories, methods, processes, fun and laughter.

Where will the money and resources come from? How can you optimize networking, trade of goods and information?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

FALLING FRUIT & LEAVES

Evaluation, Review, Renewal, Next Steps.

Falling fruit and leaves replenish the soil food web, giving nutrition & food to the ecosystem. Take time to evaluate and review your process from foundation to completion. This fosters renewal and next steps, integrating key learnings and suggesting improvements for the next cycle. Seeds are saved, ready to plant with new vision & enthusiasm.

How will you evaluate and review?
What are the next steps?

Source: Robin Clayfield dynamicgroups.com.au
Envoy: Delvin Solkinson permaculturedesign.earth
Art: Brenna Quinlan brennaquinlan.com
Design: Alexa Spaddy alexaspaddy.com

VISION TREE

SAP & LIFE FORCE

A Living, Vital, Dynamic System.

The life cycle of the tree exists within the context of a living, vital, dynamic system which is cycling and spiralling energy & nutrients, evaluating & reviewing, feeding back, improving and fine tuning all the time. Group work has the same characteristics as a tree, it's a system of systems, all connected and interrelated.

How can your group & it's members remember their interrelationship and interdependence? How can you act with reciprocity & respect?

Source: Robin Clayfield dynamicgroups.com.au

Envoy: Delvin Solkinson permaculturedesign.ca

Art: Brenna Quinlan brennaquinlan.com

Design: Alexa Spaddy alexaspaddy.com

VISION TREE

VISION TREE SUMMARY

The **Vision Tree Planning and Design Process** can be used at a macro or micro scale to guide your group's whole foundation process and to review, recap or recover at any stage. It can be used by each team within the group or by the whole group. Add your own elements and meaning to suit your group's needs and expression.

Remember the importance of creative, interactive & collaborative processes. Have fun while cultivating acceptance and compassion.

ADOPT SHISO

Perilla frutescens, the beefsteak plant, is a self-seeding annual that is longer-lived than most perennials.

The flat-leaved varieties taste the best in salads, pestos, vinegars, and honeys. Medicinally, it is identical to tulsi, holy basil, and comes, like tulsi, in both green and purple varieties.

ROT THE NETTLE

The only fertilizers your garden needs are worm-enhanced compost and nettle rot liquid. Stuff a trashcan or compound bucket with coarsely chopped nettle. I use the stalks that remain after we pick off the leaves to use in soup. Fill the container with nettle, then fill with water, cover and let sit until it reeks, at least two weeks. To use, dilute with 3 parts water and pour on the plants you love, the plants you want to thrive, and the plants you want to flower and fruit.
